SUMMARY

Full-Stack Developer with 5 years of hands-on experience building business systems and web platforms — from ERP and inventory systems to booking platforms and marketplaces. Comfortable working with .NET, Node.js, and Next.js, and used to joining a team or a software company on a project basis to deliver a defined scope of work. Focused on understanding how the client's business runs day to day, then building a system that fits it and holds up once it's in use.

SKILLS

Backend: Node.js, Express.js, NestJS, .NET / ASP.NET Core, REST APIs, JWT Authentication, Role-Based Access Control

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Shadcn-UI, HTML5, CSS3

Databases: PostgreSQL, SQL Server, MongoDB, Prisma, Redis

Tools: Docker, Git, GitHub, WebSockets

PROFESSIONAL EXPERIENCE

Independent Freelance Developer — Remote

Aug 2026 – Present

- Working full-time as an independent freelancer for local and international clients.
- Currently building PriceMarket, a real estate and vehicle listings marketplace for a client in Latvia — the offer/reservation flow and Stripe payments (React, TypeScript, Node.js, PostgreSQL).

Full-Time Web Developer — Pick Tech, Cairo, Egypt

Feb 2024 – Aug 2026

- Built multilingual web applications with Next.js, TypeScript, and Tailwind CSS for European and Arab markets, with a focus on responsive design and accessibility.
- Took on freelance projects on the side, including an ERP system for a Saudi contracting company (Alhussan) and a credit-sales app for a wholesale trader (Hesabatak).

Freelance Web Developer — Egypt

Oct 2022 – Feb 2024

- Built web applications with React.js connected to an Express.js API, with JWT-based authentication.
- Built an admin dashboard with Next.js and Express.js, styled with Tailwind CSS.
- Built websites for small businesses — booking, marketing, events, and corporate sites — using React, Express, Tailwind CSS, and Shadcn-UI.

Self-Directed Learning & Early Projects

Oct 2020 – Oct 2022

- Learned full-stack development independently after graduating, and practiced through small training projects before starting to take on freelance clients.

SELECTED PROJECTS

PriceMarket — Real Estate & Vehicle Marketplace

Client project, Latvia | 2026 | React, TypeScript, Node.js, PostgreSQL, Stripe

- Built the offer and reservation flow for a European marketplace for real estate and vehicle listings.
- Added Stripe payments and background job handling for time-sensitive reservations.

Sawiyaa — Wellness Booking Platform (sawiyaa.com)

2026 | *Next.js, NestJS, PostgreSQL, React Native*

- Built an Arabic-first platform where people can find wellness professionals and book sessions.
- Built both the web app and the mobile app (React Native), with separate experiences for clients and practitioners.
- Added payments and made the platform adjust pricing based on the user's country.

Alhussan — ERP for a Saudi Contracting Company (alhussan.tech)

2025 | *React, Node.js, PostgreSQL*

- Built an internal system to manage projects, employees, attendance, payroll, assets, and maintenance.
- Built the dashboards and permission levels the team uses day to day.

Hesabatak — Credit Sales App for a Wholesale Trader

2025/2026 | *Desktop application*

- Built a desktop app for a wholesale trader to track customers, suppliers, credit sales, and collections.

OTHER PROJECTS

- **Khadamat Hub** — marketing platform connecting businesses with clients (Next.js, Express.js, MongoDB).
- **StockFlow** — sales, inventory, and POS management system (React, Node.js).
- **DevSphereX** — multilingual website for a software services company (devspherex.online).
- **EPCA** — public website for an environmental association in Saudi Arabia (epca.sa).
- **Backend for an E-Commerce Website** — product catalog and order handling for 200+ products (Express.js, MongoDB, JWT).
- **Infinity University Website** — course and student management platform (Next.js, Express.js, PostgreSQL).

EDUCATION

Bachelor's Degree in Computer Engineering — Cairo University, Cairo, Egypt | Oct 2015 – Oct 2020

Additional training in front-end, back-end, and database development — AMIT Learning, 2022

LANGUAGES

Arabic — Native | English — Fluent
